

## 2 Best Method of Shower Grout Cleaning

Cleaning your shower tiles specifically shower grout can be a pain. It is one of those arduous and tedious task that no wants to do.

# Chemical-Based Cleaning Solutions

Visit your supermarket to get the best cleaning solution that cleans your tiles and grouts effectively. Sounds easy, isn't it?

## DIYs Natural Cleaners

Apart from using those expensive commercial solutions for shower tiles, you can choose to make some natural cleaning solutions at home.

## Bleach and Water

- Add one cup of bleach to one bucket of water and then mop the affected area with the solution.
- Put your rubber gloves on and scrub the mopped area with a dry cloth.
- Let the bleach set onto the grout for a few hours to fight against the tough stains and grime.

1

## Baking Soda Vinegar and Water

- Make a paste of baking soda and water and spread it across the grout lines of your shower.
- Let the paste sit on the grout lines for several minutes, to break down the stubborn stains.
